## ◆ Chitkara University, Punjab

2021 - Present

B.Tech-Computer Science

# Projects

## ◆ BhartDheko-Ticket Booking App

Developed BhartDheko an Android app for booking tickets to Indian monuments.

Built using Flutter for crossplatform compatibility.

Integrated Firebase for user authentication realtime updates and secure payments.

## ◆ Portfolio Website

Developed a dynamic and responsive personal portfolio website using HTML CSS and JavaScript.

Designed an engaging user interface to showcase personal information skills and projects.

Optimized the website for different devices and screen sizes.

# Achievements

I am delighted to share a significant achievement as the team leader in the GDSC Octahack Hackathon. My name is Sanjeev Jaiswal, and under my leadership, our team achieved an impressive top 10 ranking in the competition
